

# PRECITEX LATTICE APRONS

## MESH APRONS FOR COMPACT SPINNING

PRECITEX introduces **Lattice Apron** for Compact Spinning Systems of different makes. The Lattice Apron provides adequate compacting of fibres and delivers yarn with low hairiness value.

### *Salient features*

- PRECITEX Lattice Apron has uniform construction to ensure better compacting.
- It's manufactured using superior quality anti-static material to ensure trouble free performance. Fibre does not stick to the surface of the apron, providing a clean working surface all the time for effective compacting process.
- The material used has self-lubricating properties and low coefficient of friction for smooth running.

*PRECITEX Lattice Aprons are available in different surface finish suited to varied applications.*
