

PRECITEX TA APRONS

FOR TOUGH SYNTHETIC APPLICATIONS

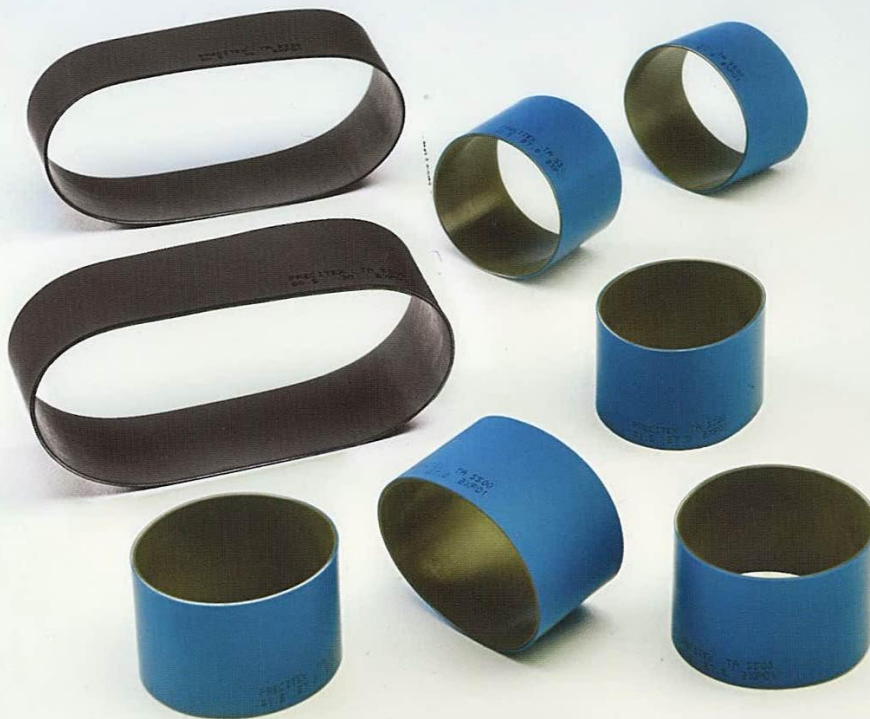

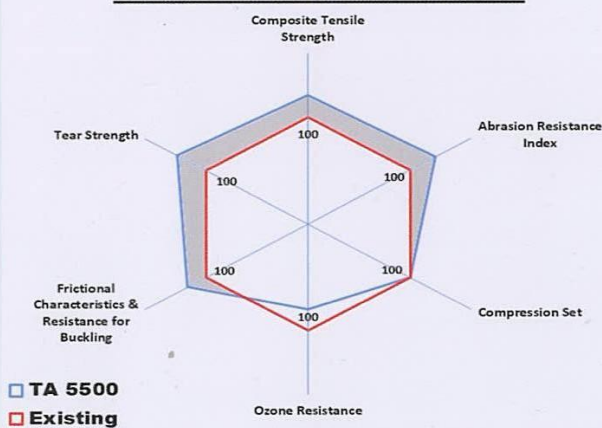

PRECITEX TA Aprons are ideally recommended for applications that involve the processing of coarse synthetic and recycled fibres.

Salient features

- ◆ Lesser wear on the apron surface while processing harsh fibre.
- ◆ Sturdy construction minimizes bottom apron buckling thereby reducing apron breakage.
- ◆ Higher tensile strength also contribute in minimizing apron breakage.
- ◆ Excellent tear strength of the compound resists surface damage due to bottom roller lap-ups.

All the above will result in an enhanced life span of upto 50% and also significantly reduce consumption of open aprons.

KEY PROPERTIES: PRECITEX TA 5500

PRECITEX
