Our Products

LMW, Rieter & Trutzschler Blowroom (Aluminium & Wooden) Spiked Lattice | Card Licker-In Pinned Roller
Blowroom & Carding Wire Beater | Carding Chute Opening Roller | Waste Opener Lag Aluminium & Wood
LMW, Rieter & Trutzschler Blowroom Pinned Roller | Blowroom Disc Beaters | Blowroom Conveyor Belt |
Textile Steel Needle (PIN) | Brush for Carding & Comber | Spinning Flocked & Wooden Clearer Roller

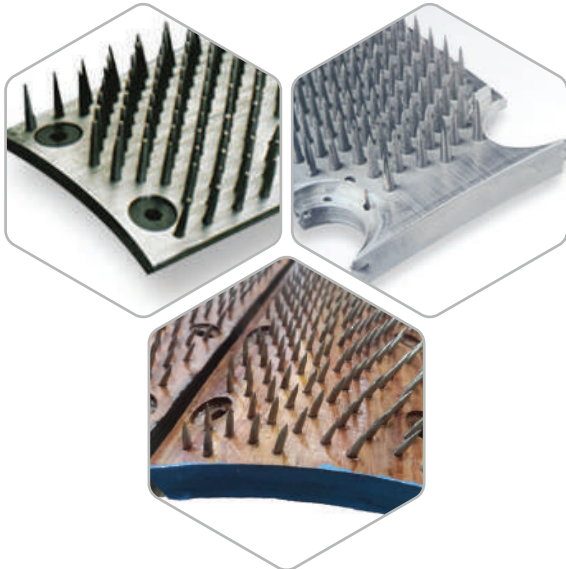

◆ Aluminium & Wooden Spiked Lattice:

Able to supply Aluminium & Wooden Spiked Lattice for LMW, Rieter, Trutzschler Blowroom Line Machines.

Suitable for Unimix machines made with 1st Quality Aluminium Spike: High Carbon Steel (Imported) 48 HRC with Bright Nickel Plating, Imported Belt (German make) Webstrip (Imported) & Special Bolts & Nuts (SS) press

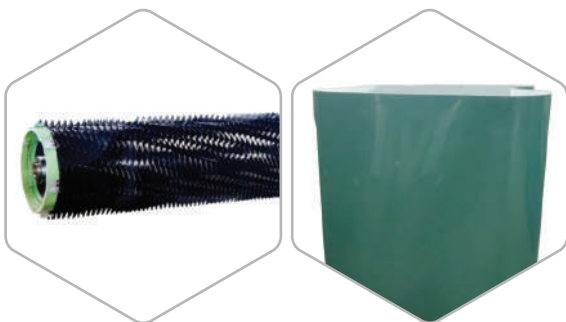

◆ Waste Opener Lag Aluminium & Wood:

High Quality laminated compressed wood is used. Punch type spiked are fixed into the lag. So there is no falling of spikes.

M/C: Rieter, Trutzschler, Marzoli, Lakshmi & Crosrol

◆ Blowroom Disc Beaters, Blendomate Beater & Blowroom Conveyor Belt:

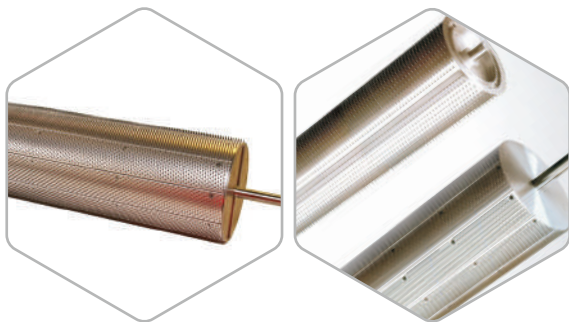

Using cutting edge technology the edge and the single of the disc are more effective and the fibre maintains the same constant quality.

Advantages:

Opening Good, No Choking & Lapping, Fibre Loss is less. Cleaning and opening of fibers & Conveyance of bulk material in minimal time

M/C: LMW, Rieter

◆ Conversion of Pin type Beater (Blowroom):

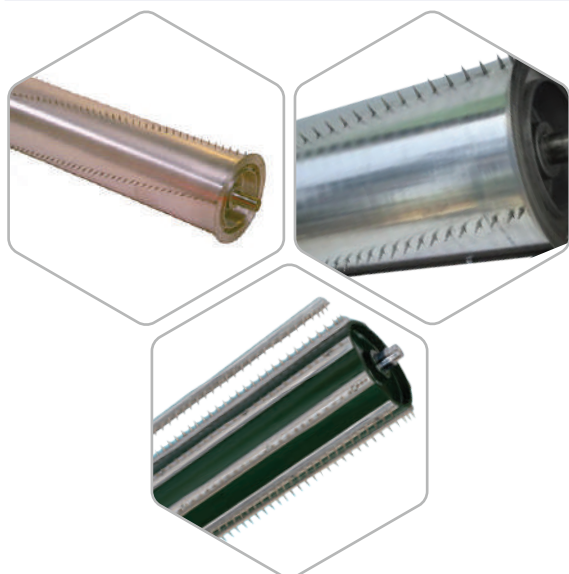

Recommended for Replacing Saw tooth type Beaters to Pin type Beaters

Advantages:

1. Reduced neps Generation
2. Reduced lint loss% in Blow Room Waste
3. Long Life

M/C: LMW, Rieter, Trutzschler & Other M/C's

◆ Conversion of Spiked Bar type to Spiral Chute feed Rollers:

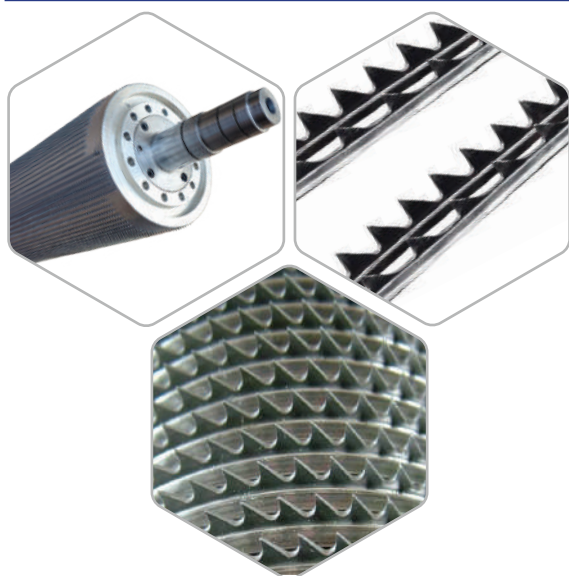

Recommended for Replacing Spiked Bar type to Spiral type Chute Feed Rollers

Advantages:

1. Reduced Hank CV%
2. Long Life

M/C: LMW, Rieter, Trutzschler & Other M/C's

◆ Pin type Lickerin & Wire Beater:

1. Pin type Lickerin (250MM) for LMW, Rieter, Trutzschler & Other Machineries.
2. Pin type Lickerin for TC 03, TC 5/3, DK 903 & Other Trutzschler Carding Machines
3. Wire Beater for Blowroom & Carding Machineries
 - a. To open the fiber tufts into smaller and more uniform units
 - b. To clean the fibers by removing trash, dust, seeds, etc
 - c. To blend different types or grades of fibers for better quality and consistency.

◆ All type of Spikes (Pins):

M/C: Blowroom, Carding & Hardwaste Opener

◆ Brush for Carding & Comber:

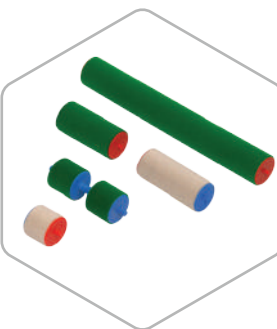

No.1 Quality Mexican Fibre is used. The Fibre are fixed by using an automatic machine which enhances quality & life.

Advantages:
Excellent Cleaning & Increased Quality

M/C: LMW, Rieter, TRUMAC & Hara

◆ Spinning Flocked & Wooden Clearer Roller:

Special Quality adhesive is used as a Raw Material. So falling of Spur doesn't occur.

Advantages:
Increased Life & Performance

M/C: Lakshmi, Rieter, KTTM, Marzoli & Zinser
